DETAILED ACTION

Double Patenting

The nonstatutory double patenting rejection is based on a judicially created

1. A rejection based on double patenting of the "same invention" type finds its support in the language of 35 U.S.C. 101 which states that "whoever invents or discovers any new and useful process ... may obtain a patent therefor ..." (Emphasis added). Thus, the term "same invention," in this context, means an invention drawn to identical subject matter. See *Miller v. Eagle Mfg. Co.*, 151 U.S. 186 (1894); *In re Ockert*, 245 F.2d 467, 114 USPQ 330 (CCPA 1957); and *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970).

A statutory type (35 U.S.C. 101) double patenting rejection can be overcome by canceling or amending the conflicting claims so they are no longer coextensive in scope. The filing of a terminal disclaimer cannot overcome a double patenting rejection based upon 35 U.S.C. 101.

2. Claim 1, 6, 15 and 17 rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claim claims 3 and 6 of copending Application No. 10/040756. Although the conflicting claims are not identical, they are not patentably distinct from each other because the limitations to the thigh holder and pressure meter are broadly disclosed in the patent.

Claim Rejections - 35 USC § 112

3. Claim 13 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The examiner questions whether applicant is attempting to recite a combination-subcombination since the particulars of claim 13 are not required in the apparatus of claim 1. If applicant is not claiming a combination of the waist apparatus and load controller, the claim drawn toward the load controller is potentially

subject to a restriction requirement. Additionally, the recitation, "all or some" is indefinite. Clarification is requested.

Claim Rejections - 35 USC § 102

4. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

- a. Claims 1 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Jones. Jones discloses all of the limitations of the instant invention.
 - b. Claims 1 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Lambert '626. Lambert discloses all of the limitations of the instant invention.
 - c. Claims 1 and 16 are rejected under 35 U.S.C. 102(b) as being anticipated by Lambert '279. Lambert discloses all of the limitations of the instant invention.
5. Claims 5, 10, 14 and 16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
